

Team Training Days

Our team events are challenging and informative and make unique team building days. The content can focus on training or fun or a combination of both! You can also combine the training with a meeting utilising our excellent conference facilities.

Low Cost and Effective

These events are a great way to both reward staff and comply with your training obligations. Another benefit is that they are also an effective way to help your staff to really buy into driver training and enhance its benefits to your company. The most popular options are below;

- Half Day Skid Pan and Dynamics Training
- Full Day Skid Pan and Defensive Road Skills

Other Options

If the focus of the event needs to be more on fun and excitement we can also incorporate some unique activities such as;

- Drifting
- Performance Driving
- Stunt Driving

Exclusive Events

We specialise in providing exclusive tailor-made packages catering for groups of 6 - 24 participants. On these days no other DriverSkills clients will be on site. The events can also be branded with your corporate logo if required. All team training events run from 9am to 4pm and take place at our Driving Dynamics Centre, situated near York.

Adapted to Your Needs

Additional activities can also be added to the format such as manoeuvring exercises or trailer reversing. Also the focus of the training can be adjusted to incorporate awareness of certain driving hazards such as driving in the winter.

Lunch

All our team events include a hot lunch in our on site cafeteria which is an authentic war time NAFFI (but with much better food!), set in the grounds of the Yorkshire Air Museum which is adjacent to our centre.

Conference Facilities

We can also provide excellent conference facilities for large or small groups on site through our link with the Yorkshire Air Museum. This is a great way to combine a meeting with driver training.

Quotation

Contact our corporate sales team on **01904 400266** for a competitive quotation.
